Dump Truck Driver

1). I would like to serve on the AC Transit board because I am a former employee with 21 of experience & knowledge about the policies, procedures and implementations of the District. In addition the riding public wants a fresh new perspective for the next four years.

3) My most valuable experience is the skill level and blessings we had on the day of the Loma Prieta earthquake. The Districts communications system needs an update to handle many emergencies at one time.

Yes, I've been following the changes and I see that the District has used ideas I've shared in the past election seasons. ie "New Hybrid-Electric Buses"

4)Yes, I ride AC Transit everyday.

5) I will share these ideas once I arrive on the board of directors
thank you.

6) We will see if double-decker buses are the way to go for an increase in ridership. This investment is to early to gauge right now.

7) If the grant money is still in place, then go forward. If no money is in the budget to sustain this project then this would be a big problem.

8) To answer the next 2 questions: I have confidence that the AC Transit staff and marketing departments should be full of ideas. I can't wait to hear them.

10) AC Go is still a work in progress and could use some adjustments.

11) I've been Endorsed by the voting public so far.

12) Yes, I would like to say how grateful it is to have the support of the Green Party, who has voted for me each election cycle.

THANK YOU for your consideration once again.

Be Well,
